## TONOPAH MINING MEN VISIT REPUBLIC CAMP

W. J. Douglas of the Midway, R. E. Gowan of the Mizpah hotel, Hart C. Cals, Duncan McDonald and Ed Bevis visited the camp of Republic yesterday and spent the entire day tramping over the district. Samples were taken of every property and ledge and as soon as the returns are available the party may consider taking one or two leases. The trip to and from Republic was made in the Bevis Blower with Ed Bevis as chief engineer.

## ROCHESTER LOSES AN IMPORTANT OPERATOR

Word has been received that Geo. Wingfield has disposed of his Rochester, Nev., mining interests, selling

all his stock holdings in the Rochester Weaver property in which W. H. Webber and John T. Hudson of Salt Lake were interested with Mr. Wingfield. Such a consummation has been anticipated for the Wingfield interests have not been over enthusiastic over Rochester at any time.—Ely Expositor.

## PARTNERSHIP DISSOLVED

Notice is hereby given that the law partnership of Bartlett & Thatcher is this day dissolved by mutual consent. Dated, March 24, 1912.  
GEO. B. THATCHER,  
GEO. A. BARTLETT.

J. M. SWANDER, Minister.

## CHRISTIAN SCIENTIST.

Services Sunday morning at 11 a. m. Subject, "Reality." The public is cordially invited. Sunday school at 12:05 p. m. Church at corner Florence and Cross avenues.

## CROPS ARE DAMAGED.

The California papers are recording some serious damage to fruit crops in the sections that are depended on for some of the finest shipments from the other side. The late frosts during the past week have resulted in destroying about half of the crop. Almonds and other tender fruiting trees have had a severe frost biting. It seems that nature has gone wrong all round this season.

Location notices on sale at the Bonanza office.

## KENDALL AND DOUGLAS OPEN UP FIVE FEET ORE

## LEDGE OPENED UP AT MANHATTAN WEEK AGO CONTINUES TO SHOW STRENGTH.

(Special to the Bonanza.)

MANHATTAN, Mar. 29.—The discovery of five feet of ore that gave an average assay of \$2492.40 in the Kendall-Douglas lease on the Manhattan Consolidated a week ago continues to show good strength and high values with development, although it is not as large or rich as when first broken into. The winze is being continued downward on the vertical fissure, and the ore also shows strong, running back into the big break line, this geological feature having been responsible for the big deposit of rich ore. The main part of the ore body is a dark brown mud carrying particles of crushed quartz, and this yields some wonderful pinnings of gold. On the wall of the vertical vein is a streak of white quartz from six inches to a foot wide that shows liberal quantities of gold visible to the eye. Aside from the assay of \$2492.40 secured from an average sample across five feet of ore, other samples yielded from \$1200 to \$1500 per ton in the main ore body, with which is associated about two feet of soft, light colored ore that assays from \$60 to \$75 per ton.

It cannot be expected that such high values as have been shown will continue indefinitely, but it is evident that there is a large body of unusually rich ore in this territory. The winze is being sunk from the 150 foot level, this being the first development undertaken below this point. During the past year a large amount of ore has been stoped above this level, and some very rich pockets have been found in connection with the main ore body. Almost invariably these have been close to where the break in the line, which is very prominent, has been in contact with the vertical vein. This break raises toward the surface at an angle of about 45 degrees, and is well defined along its entire course.

## PAINTER AND PAPERHANGER WHO WORKS SYSTEMATICALLY

Frederick Broadwell, the local painter and paperhanger is now in position to accept any and all kinds of engagements in his line of work. He gives a positive guarantee of satisfaction with each job. Broadwell has been engaged on a number of the largest propositions in this city and his work in all cases has been excellent in character. He gives his undivided attention to his work and carries his labors out systematically, which accounts for the many favorable comments.

## ALAMEDA WOMAN KILLS HERSELF IN CEMETERY

OAKLAND, Mar. 29.—Mrs. Louis Weinman committed suicide by shooting herself in the right temple with a revolver while seated on a bench in Mountain View cemetery.

## A BIG CONCERN.

The new mill being erected at Buckhorn by George Wingfield will have a capacity of 600 tons daily, and the mine and mill will give employment to about 700 men.

## AMUSEMENTS

## BUTLER THEATER.

The program at the Butler theater tonight will be as follows: Pathe Weekly, showing Bud Fisher with "Mutt and Jeff." This being the first Pathe in which "Mutt and Jeff" have appeared makes it a very interesting picture. "The Dancer," by Jas. Oppenheim, a dainty little girl who is a natural dancer, is prevented from taking up the art because her mother deems it a sin. She is saved from a life of drudgery by an old dancing master who convinces her mother of her error. "The Girl of Sunset Pass," a Lubin drama showing how a small girl strives for a living and how she made good after her mother's death. "The Senator's Dishonor," a Kalem drama. Tomorrow we will show "The Mexican Spy," a thrilling military production in two reels. This picture is of the highest art and is acted out by the Lubin stars. This picture was taken with typical surroundings and the Lubin people, through their great care and pains, have made this an extraordinary feature. We also have two other very good pictures.
